Owners

Developers

General Contractors

Subcontractors

Vendors/Suppliers

KENNY MALLICK, CHIEF EXECUTIVE OFFICER MALLICK MECHANICAL CONTRACTORS

TUESDAY, OCT 19TH 8:00 A.M.

In 1994, Kenny Mallick, a master plumber and gas fitter, created Mallick Plumbing and Heating, Inc. The company started out as a home-based business and Kenny hired his brother Michael and his father Ken Senior, called "Pops," as his first employees. The business quickly became known for offering quality work at a fair price among the construction and remodeling industries. Over the years, the Mallick name has continued to be a sign of trust and quality craftsmanship in the Metropolitan Washington, DC area.

In 2010, Ken made the decision to separate the construction division from the service division and he established this operation as its own company. Thus, Mallick Mechanical Contractors, Inc. was incorporated. Revenues have grown to over \$40M with 100+ employees dedicated to providing exceptional HVAC and plumbing services.

Mallick Mechanical is committed to making the local community a better place to live, work, and raise a family by giving back all year long to organizations including Junior Achievement, Toys for Tots, American Lung Association, American Foundation for Suicide Prevention, Boy Scouts of America, and sponsorship of numerous local kids sporting teams.
